MANY CANDIDATES IN FIELD FOR RHODES SCHOLARSHIP

Interesting Information Concerning the Prospective McGill Representatives at Oxford

The Rhodes Scholarship is one of the most talked of subjects among the upperclassmen of the University just at present. This scholarship—the highest reward that can be given to a McGill man—requires a very high standard of all-round ability. The men presenting themselves for it must be good students as far as their studies are concerned. They must also have taken an active part in athletics during their College career and have proved themselves "leaders of men." They must also have exercised a wholesome influence on their schoolmates, while at school. This scholarship amounts to \$1500 for three years and the student who gets it must spend this time in one of the colleges of Oxford.

As far as the "Daily" has been able to ascertain three men have already decided to send in their applications.

Mr. Bruneau, after having had a brilliant career at the Montreal High School and entered the University of McGill in the fall of 1909. At the School Leaving examinations he got an average of over 95 per cent, making full marks in a number of subjects. Mr. Bruneau got an all-round first-class in the Sessional examinations of his first two years and in his Junior year he headed the list of the Honour Students in Economics and Political Science.

Mr. Bruneau won the Entrance Scholarship of \$300, and repeated his performance at the beginning of his Junior Class. He also got the MacKenzie Scholarship at the end of his third year.

As far as athletics are concerned Mr. Bruneau ran with the Harriers for two years and in his second year

played for his class hockey team, when it won the Arts' Championship.

Mr. Bruneau has held a number of offices since he has been at College among which may be mentioned, Member of the Annual Board, Secretary of the Literary Society, Secretary—Treasurer of the Harriers, etc.

Mr. Percy Corbett after having graduated from Ormstown Academy, joined the class of Arts '13 in the fall of 1904. He headed his class in his first year, and was second in his Sophomore year. Mr. Corbett also got two scholarships one at the beginning of his second and the other at the beginning of his third year. He also stood remarkably high last year in his course of Honours in English and Latin.

Besides being a very keen student Mr. Corbett is a member of several Executives. He is Vice-President of his class and he holds the same position in the Historical Club. As far as athletics go he has run with the Harriers for the last three years and played with the class hockey team in the last two years.

Mr. Corbett's many qualities have made him a popular member of his class, and he seems to be a most serious contender for the Scholarship.

Mr. Dale Harris it is said, will also present himself for the Scholarship. Mr. Harris has the reputation of being one of the best classical students that has passed through McGill and many think that he would make a name for himself if he was sent to the great English University. Mr. Harris played on the third football team this fall, as well as running with the

(Continued on page 4.)

SIAMESE MEDICINE DESCRIBED BEFORE ORIENTAL SOCIETY

Doctor Fyshe Tells of Curious Cures

A very representative meeting of the McGill Oriental Society listened with much interest to a lecture given last evening before the McGill Oriental Society. In dealing with the subject of "Siamese Medicine," the lecturer, Dr. Fyshe, showed himself thoroughly conversant with the native habits and methods. During his stay in the country Dr. Fyshe was surgeon to the police force at Bangkok.

He referred briefly to the state of transition through which the Siamese are passing. Medicine is taught with absolute disregard to the principles of anatomy. For instance, the heart is considered the organ of thought, pure and simple. He touched on the fear that the people possess of evil spirits. They believe in the healing power of medicines, most of which are taken from the vegetable Kingdom. Some faith is also placed in the healing virtues of things derived from the animal kingdom. For instance for medicinal purposes the heart of a cobra would fetch as much as a dollar. If a cure fails the cause is attributed to the influence of evil spirits or wizards. Mention was made of the great amount of persuasion necessary to induce a native to go through an operation. Reference was being made to the influence of Buddhism, the religion of the land, upon Siamese medicine. The speaker referred to the various classes of physicians and to the difficulty of introducing European ideas. The lecture concluded with a few remarks on the influence of Indian culture on the people.

Dr. Fyshe then had a number of slides shown of scenes of interest in and around the city of Bangkok. Special reference was made to the Chinese element in the architecture of the country.

The President brought the meeting to a close with a few appreciative remarks.

THE ELECTRIC CLUB FAVORS ABOLITION OF SMALLER CLUBS

Mr. McDermott gave Interesting Address Last Night

Last night a most interesting address was given by Mr. McDermott to the Electrical Club on the subject of the "Montreal Light, Heat and Power Co.'s Distributing System."

Mr. McDermott showed in a very lucid manner the way in which the power is brought to Montreal from the various generating stations. With the help of several diagrams he showed the numerous wiring systems used at the different sub-stations. This was very complicated and took some time.

After Mr. McDermott had finished, Dr. L. A. Herdt told the Club some very interesting facts about the early history of the M.L.H. & P. Co. These were especially interesting as they included some facts about Mr. Wilson, now manager of the Company, and formerly a McGill student. The power generation station at Lachine was referred to as being originally designed for factory purposes, only it afterwards changed to a generator station. After an inspection of the drawings which Mr. McDermott had brought, a hearty vote of thanks was proposed and passed after which the Club settled down to discuss business.

The business before the Club was that the Electrical Club should take a lead in following the advice of the Daily with regard to the amalgamation of all the small clubs. This was brought forward by Mr. Thomson, and after a slight discussion in which Prof. Christie said that there without doubt too many small clubs in the University, but that what was to be done was up to the students themselves, a proposal was carried to the effect that the executive of the Club should formulate a report for the next meeting. The members of the Club then dispersed.

Wisdom is simply what other people don't know.

That there is no foundation in fact for the criticism made against football that it is too severe a tax on the vital functions of college men, is the claim made by Dr. C. P. Hutchins, director of physical training of Indiana university. Dr. Hutchins has proof with which to back up his statement which was obtained by keeping track of the actual playing

time in the Chicago-Minnesota game. Dr. Hutchins said this particular game was chosen because it was believed that football in its full meaning would be demonstrated. The period of physical activity was greater in the second quarter when there was three minutes and thirty-five seconds of actual playing.

Editorials

Premier Whitney of Ontario is reported as viewing with alarm the suggested introduction of actual party politics into the University of Toronto by the Undergraduates of that seat of learning. It would be interesting to hear what comments he would have to make upon the fact that both the Liberal and Conservative parties here intend forming permanent political clubs along party lines.

The Daily cannot see any urgent necessity for such a step. Surely the Mock Parliament provides enough scope for our embryo politicians. That anything will be gained of real benefit to the undergraduates at large or the University itself seems very doubtful; that trouble and dissension among ourselves may upon occasion arise therefrom is not beyond the bounds of possibility.

The would be organizers of the Conservative Club claim, that, by the introduction of their club here, a means is being placed at the disposal of the students for getting into closer touch with the political world and of developing their political thoughts and ideas.

The Liberals will no doubt advance the same argument. It may be so, but we doubt very much whether these clubs would really have a broadening influence. A more probable result would be the strengthening of party bias, of which, to our thinking, there is already far too much here.

The suggested Clubs may indeed inculcate a fuller understanding of political ideas. That they will in any way tend to promote the holding of lofty political ideals, we very much doubt. In regard to this matter we can in all sincerity advocate a policy of "let well enough alone".

As yet at McGill there seems to be little reason why undergraduate activities should be limited in any way. We are far behind the larger American Universities in respect to the number of these. On the whole, we see no necessity for emulating in this respect our cousins across the border.

In the States the various extra curriculum activities are taken far more seriously than they are here. There is a greater number of Clubs and Student organizations and the excellence of some of these and their productions is remarkable. Certainly at McGill it would be next to impossible to publish a humorous magazine in any way equal to the standard set by the Cornell Widow or the Pennsylvania Punch Bowl; and as for producing a musical comedy,—well, the best we have been able to do in that line so far has been a vaudeville show of only very moderate quality.

The Americans, too, are far ahead of us in regard to the attention paid to athletics. There are of course, a number of reasons for this, but it is a fact that they take more pains with their athletics than we do. The remarkable progress made by their hockey teams bears ample witness to this.

We can therefore readily understand the idea in limiting these activities as they must have a great tendency to distract attention from academic work. They undoubtedly also interfere with it to a certain extent here but not in such a measure as to call for restrictions of any nature. The time for such action may however be close at hand.

FIRST AID DECREES GIVEN YESTERDAY TO EIGHTEEN MINERS

St. John's Ambulance Association Receives Valuable Addition

Yesterday afternoon, in the Ritz-Carlton Hotel, the Executive of the St. John's Ambulance Association held a meeting and conferred a number of degrees on men of the Mining Department who have just finished a number of lectures on "First Aid." Dr. H. B. Yates was in the chair, and Mr. Payey assumed the secretarial duties. Some of the prominent men present were: Col. Jeffrey-Bennett, G. H. Drummond and Prof. J. Bonsall Porter.

The minutes of the previous meeting were read, and then the chairman announced the list of names of the men who had qualified, which were as follows:—

Professor J. Bonsall Porter, John Crossfield, St. Claire McEwen, P. W. Baridon, R. MacDougall, R. C. Dempster, A. B. Clarke, R. H. Hanley, J. Lipsey, H. M. Lyster, Massey Baker, T. Lynch, Eric Billington, C. H. B. Cooper, C. L. Cumming, W. G.

Mitchell, R. Mais, E. Orkin, J. M. Jenks and R. K. Morris.

Congratulations are due to these men, who are the first McGill students to have properly qualified while at College, to render quick and efficient "First Aid" when called for.

It is hoped that the succeeding years will see fit to arrange for such lectures as have been given lately. For this is a thing that is helpful to any man, and it is felt that the St. John's Ambulance Association have secured a valuable addition to its already swelling ranks.

Maxims For Students of Engineering

If we inquire somewhat more minutely into the qualities that make for leadership in engineering, we shall find that thoroughness, originality, and the habit of making all mental acquisitions one's own are essential. Originality is a gift, but it may be cultivated; the two other qualities are certainly within the reach of every young man with normal endowments. The habit of going to the bottom of every subject investigated instead of contentment with a superficial examination is one to be assiduously cultivated. Each essay in concentrated effort makes mental fitness for still deeper levels of penetration. —Carhart.—

McGill Wrestlers Leave for
Pennsylvania Meet To-night

At a special meeting of the McGill Athletic Association at Strathcona Hall yesterday several important matters were brought up for discussion. The application of the Wrestling team to take a trip to Pennsylvania State College came up first. The team is stronger now than for some years and, acting on the advice of Mr. Geo. Smith, the instructor, the committee decided to grant the necessary permission. The team will probably leave on Wednesday and will likely be composed of six of McGill's star grapplers.

A letter was then read from Hilary Bignall, who played middle wing on the football team last fall, asking permission to play hockey with the Victoria team of the Interprovincial Union. After a short discussion it was decided to allow him to play.

Another matter which came up for discussion was a request from the football team of the Class of 15 through their manager W. Pennock, for the granting of class numerals as winners of the Wood Cup. This was also granted. The following players were awarded their numerals: McCall, Rexford, Fraser, Hovey, Williams, Harris, Peck, N. Williamson, Pennock, Forbes, Crutchfield, Fotheringham, Little Abbott and Seale.

**TO SUGGEST HOCKEY
AS A MAJOR SPORT
AT HARVARD UNIV.**

Action Testifies to Growing
Popularity of the Game

The fourth session of the Harvard Forum will be held Thursday evening February 13, in the Union. The question to be discussed will be: "Shall hockey be made a major sport?" In view of the recent developments in the hockey situation, this is a question of vital interest to many members of the University and is to be discussed at the special request of the Student Council which has the question under consideration.

A thorough discussion of the matter is sought and the opinion of the College men is earnestly desired on the subject. Further announcements will be made later.—Harvard Crim.

**STUDENT ACTIVITIES
MAY BE LIMITED AT
CHICAGO UNIVERSITY**

Letter Received Yesterday
Points Towards This

The Undergraduate Council of Chicago University are evidently worried over the interest taken by students in undergraduate activities. The following letter received by the Editor-in-chief of the Daily may prove of interest in this connection.

Dear Sir:—
The Undergraduate Council at the University of Chicago is investigating Point Systems by which undergraduates are limited in their extra-curriculum activities.

Have you such a system originating either with the students or with the faculty? If you have we should greatly appreciate an outline of that system, and a statement of the difficulties it was intended to meet with the result of the trial. If you have such a system what is your opinion of its necessity? Does sentiment prevent a man from over-doing student activities? Would it interfere with student liberties to arbitrarily limit a man's outside work?

Thanking you before hand for your help, I am,

Sincerely yours,
NORMAN C. PAINE,
President.

**SECOND Y. M. C. A.
SKATING PARTY ON
CAMPUS RINK TO-NIGHT**

Sophs. and Juniors will be
Guests of Association this
Evening

Tonight, the Y.M.C.A. are holding the second of their popular skating parties. This time it is for the Second and Third Year men, and judging from past records, there will be a large attendance.

Those who are going are requested to meet at Strathcona Hall first, at p.m. sharp, where programmes will be filled out, and then proceed to the campus rink. Refreshments will be served afterwards in the Hall.

The fine weather of the past few days promises well for a good sheet of ice, and Jimmy has been working hard in order to realize that.

Four women are taking engineering at Michigan and are reported very successful in their work.

Notes and Comments

The Boxers, Wrestlers and Fencers have still three weeks left to prepare for the Intercollegiate Assault at Arms. Much can be accomplished in this time, and it is imperative that this should be done if the efforts of the Red and White representatives are to meet with success. In many of the contests last Saturday night the participants showed inexperience.

The boxers on the whole would appear to have the edge over the wrestlers. In several of the events Saturday night the men showed excellent form and should put up stout arguments in the Intercollegiate fixture. Forbes, Montgomery and Hugh-Jones have all had considerable previous experience. A good heavyweight, however, is badly wanted.

The Swimming Club Inter-Class meet should prove interesting. The best men are more or less evenly distributed among the different years, and a close contest should be the result. At this distance it would appear as though the second year, with Hodgson and McGill, were strongest, but the other years may furnish a surprise.

"We want a rugby championship," is the slogan of students interested in sport at Queens. The student body is of the impression that another season should not depart unless a rugby trophy decorates university halls.

On looking up records, we find that it is eight years since the senior rugby trophy rested at Queens, nine years for the intermediate and six years for the junior honors.

With this end in view the students have formed a rugby class, which all who desire to learn the game may attend. Coach E. O. Sliiter and Prof. Lindsay Malcolm lecture on the rules and plays.—The Whig.

A so-called "All-star amateur hockey aggregation from Winnipeg is going to make a tour of the Eastern

cities including Montreal. A game with McGill might prove interesting, as it would show whether the hockey the Red and White team is now playing is up to the Allan-Cup standard, and also differentiate the Eastern style from the Western.

McGill's chances for retaining possession of the Hockey championship are practically nil. However, in the event of Queens and Varsity splitting even while McGill downed the Presbyterians there would be a three-cornered tie.

German who performed at point for Toronto on Friday also plays on the Varsity O.H.A. seven. He did some tall line-smashing for Pete Campbell's team in the final football game at Ottawa last fall.

Mc Brock the Varsity athlete who scored twenty points against McGill in the basketball game last week, is an all-round man. He was a member of last year's Canadian Olympic team at Stockholm and subbed for Toronto football fourteen.

R. M. C. should be well up in the race for the Intermediate honors. The cadets however, will probably run up against a snag in the McGill second team as most of the men are just about ripe for senior company.

The Class games on the campus rink are often productive of some speedy hockey. Mysterious persons have been observed at a recent date watching the players and it is rumored that N.H.A. scouts have made offers to several of the most conspicuous performers.

According to Toronto papers one, Dennison, whose name graces the line-up of the Ottawa College seven, is a deep-dyed pro. He was released early in the season by Tecumseh, it is alleged, and is now engaged in furthering the advance of Father Stanton's pet towards the championship of the Inter-provincial Union.

**MED. UNDERGRADS
MEET ON THURSDAY**
Dr. Wolbach will Deliver an
Address

Owing to the fact that the Union dance is to be held on Friday evening the regular meeting of the Medical Undergraduate Society will take place on the evening of Thursday the 6th of February. The meeting will take place in the assembly hall of the Medical Building. An address, which was to have been delivered before the Alpha Omega Alpha Society, entitled "Slogans and Viewpoints in Medical Research and Teaching", will be given by Doctor Wolbach.

Other features of the evening will be pianoforte solos by Messrs Gowdy and Renault and a vocal selection by Mr. Lennie.

Dr. Wolbach who is to deliver the address of the evening, is well-known as a speaker of ability and a large number of Med. Undergraduates will probably turn out to hear him on Thursday night.

**LAFAYETTE B. A.
SPEAKS TO-MORROW
TO PHILOSOPHERS**

The Philosophical Society will meet at 8 p.m. Thursday, Feb. 6th, at the residence of Dr. Hickson, 272 Mountain Street. Mr. C. Williamson, B.A. of Lafayette College, will deal with the Ethical basis of Education.

This is a question of paramount importance to all who are interested in the school system of this country and in the principles which necessarily underlie every form of mental culture. The philosophy of education is an enquiry into these fundamental principles. Its aim is to supply new sanctions for conduct when the old sanction is no longer suffice.

It is held that education has back of it ultimately an ethical sanction. Mr. Williamson has had practical experience along educational lines in this university. A very capable and interesting handling of the subject is therefore expected.

SYNOPSIS OF DOMINION LAND REGULATIONS.

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made in any agency, on certain conditions by father, mother, son, daughter, brother or sister of in-coming homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section along his homestead. Price \$3.00 per acre.

Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. **Duties.**—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

No. 4. Notices.—All science members of the C.O.T.C. will be allowed to stop laboratory work on Wednesdays at 4-4 p.m. in future.

By Order,
CHAS. M. McKERGOW,
Adjutant, C.O.T.C.

MILITARY LECTURES

Below is the syllabus of lectures to be delivered to the C.O.T.C. by Lieut. E. L. Caldwell, R.C.D.

Lectures.

Feb. 7. Protection, General Principles, Protection on the march.

Feb. 14th. Protection at the halt, Outposts.

Feb. 21st. General Principles, Considerations which influence a commander in offering an attack.

Feb. 28th. Defence.
March 1st. General conduct of a battle. Drill and Musketry.

These subjects will be taken up in short lectures after drill on Wednesday afternoons, and other lectures will be added if circumstances permit

Here and There

Did you ever read the sign which is in every Montreal Street car containing extracts from Edward VI. Article 98, Clause 3. The said sign gives notice that under the laws of the country it is forbidden to stand in the passageways of the car—and yet we pride ourselves upon being a law-abiding people.

Oh, stately wis the ministere
Thill he sat upon the preen.
Ah, waefu, when we do nae dare
To say the things we mean.
G. V. M.

Oh, Paralellapipedons
And Bunsen Burnerites,
Your challenges are clever
But we long for other sights
The Third Floor Backs seem very bold
And eager for the fray;
The Slide Rule Slips they talk
enough,
But no one seems to play.

Excitement's keen,
Without a doubt
The handicaps
Will soon be out.

RESERVED TICKETS FOR UNION DANCE MUST BE CALLED FOR

All Not Paid for To-day will be Sold Immediately

After today no tickets for the Union Dance will be reserved and all those previously held must be called for. Those who have put their names down and have not as yet paid up had therefore better do so immediately or their tickets will be sold to some one else.

The executive are taking this step in view of the fact that the demand for the tickets is very great and they do not wish to have tickets left unallotted for at the last minute. It is customary for dance committees here to adopt steps of this nature.

Everything now is in readiness for the dance on Friday night which promises to prove an excellent one. The men will start preparing the floor today or tomorrow morning, and it should be in splendid shape by Friday evening.

The programme will be published in the columns of the Daily tomorrow morning.

MARVELLOUS.

She—And to think I am the only girl you ever loved.

He—Yes dear.

She—And to think you thought I believed it.

Blakeslee the husky defence player of the Queens team is back in the game again after an attack of tonsillitis and is said to be travelling at an awful clip. He is the possessor of a good stiff body-check and can skate with the best of them.

The University of Michigan won the championship of the Central Debating League.

The University of Chicago has \$1,000,000 worth of buildings under construction.

A young Iowa doctor has made the discovery that the ankle if placed between the foot and the knee in order to keep the calf away from the corn. Looks reasonable, don't it?

"The feast is ready, but the guests come not," said J. M. Shew, on Saturday. We hope the genial gentleman will not gather them in from the highways and byways.

Have you noticed the rush of candidates for next years staff to the Daily Office. The idea of working for the paper seems to be about as popular as a winter overcoat in the summertime. There seems to be no need of cautioning students against taking part in this undergraduate activity.

DOMINION GOV. WILL LEASE CROWN LANDS

Summer Resorters will Derive Many Benefits

The former erroneous impression that forest reserves are areas set apart by the government to be reserved from use and development is giving way to the correct view that they are for the general use of the public.

The Dominion Forestry Branch is desirous of spreading this idea abroad, and with this end in view has inaugurated the policy of surveying summer-resort lots around convenient lakes in forest reserves. These lots are of two kinds, viz: building lots and camping lots, so that the demands of both cottagers and campers may be met. Such lots are leased to the public for a term of years at a very nominal figure.

It is hoped that in this way a start may be made in bringing to the public a realization of the opportunities and advantages which the reservation of these great areas of the public domain affords the country at large.

A good example of such a resort is seen in British Columbia where a site has been laid out at Trout Lake, in the Long Lake forest reserve. This reserve is situated in the Kamloops district of the Railway Belt.

Trout Lake, at an altitude of 4100 feet is an ideal retreat for the residents of the towns and cities of the Dry Belt. Here they may escape the oppressive heat and drought of the summer season, and at the same time enjoy some of the finest fishing to be had anywhere in Canada. Already many people have secured building lots, and it is expected that in a very short time a large and flourishing summer colony will be established at this point.

Figures have been compiled to show that Iowa students will earn over \$20,000 annually. Most of this money comes from positions furnished by the Union employment agency.

MANY CANDIDATES IN FIELD

(Continued from page 1.)

Harriers and playing on his class hockey team.

Mr. Harris is sure to be a strong contender for the Scholarship owing to his all-round ability.

It is also rumored that a prominent Med. will put his name up as well as a well-known Arts graduate of 1912.

It seems that it would be hard to find cleverer and better men than those who have decided to put their names up and it is hoped that the man that will eventually be chosen will come up to the high standard set by the previous Rhodes scholars as Prof. Rose, Talbot Papineau, etc.

Phone Uptown 330

Dear Sir or Madam,—

Handling enormous quantities of Fresh Cut Flowers daily I am in a position to take on a limited number of steady customers to whom we will deliver twice every week, a CHOICE BOX of FRESH CUT FLOWERS, (my selection) meaning whatever I have a surplus of—including the greens that are necessary to make a bouquet tasty, to any address in the city for \$1.50 per week. A trial order of a week or two will convince you of this special inducement. Flowers will be delivered at any time twice a week. The cheapest place in town to buy Cut Flowers, Floral Designs, etc.

Think of it, for \$1.50 per week two boxes of fresh cut flowers—consisting of the Season's newest and freshest flowers—Roses, Violets, Bulbous and other flowers, Carnations, Orchids, etc.
